RE: Foreign Filing License for U.S. Patent Application No. 10/753,206 to John Terry,
filed Jan. 6, 2004 and entitled "System Topologies for Optimum Capacity
Transmission over Wireless TDD Systems"

Dear Director:

I am requesting your intervention to obtain confirmation of a foreign filing license that appears to have been granted in the above referenced application, but for which we do not yet have a letter stating such. The above utility application claims priority from U.S. Prov. Patent Appl'n No. 60/460,553 (filed April 4, 2003), for which a foreign filing license was granted on June 6, 2003. The PAIR system indicates that the above-referenced utility patent application cleared Licensing and Review on March 1, 2004. Due to the priority date, we must file in Taiwan this week, and can no longer await the formal filing receipt with its explicit license grant. The M.P.E.P. appears to provide for a foreign filing license petition only following an initial denial, which is not the case in this instance. See 37 C.F.R. § 5.12(b) and M.P.E.P. § 140.

As the PAIR system indicates that the above-referenced application has been approved for foreign filing, I respectfully request that your office fax or email to me a foreign filing license. As a convenience, the attached statement with authorized signature from your office can serve as that license. My personal email and phone extension are in the letterhead above. Should a petition be required, please consider this a petition and charge Deposit Account No. 50-1924 for the required \$130 fee under 37 C.F.R. § 1.17(h). Your expedited assistance is sincerely appreciated.

Respectfully,

Gerald J. Stanton
Registration No. 46,008
